

## **Responsibilities of the Pipeline Company During an Emergency**

SemGroup will immediately dispatch personnel to the site to help handle the emergency and to provide information to public safety officials to aid in the response to the emergency.

We will also take the necessary operating actions:

Start and stop pumps, close and open valves, and similar steps to minimize the impact of the leak.

If you would like a list of other pipeline operators in your area please visit the National Pipeline Mapping System (NPMS) at [www.npms.phmsa.dot.gov](http://www.npms.phmsa.dot.gov).
